### Core-Committee Member

IEEE-TEMS Chapter

December 2018 – November 2019

Organizes Workshops in the VIT campus

## PERSONAL PROJECTS

---

### Tactical Combat – A Multiplayer Strategy game

May 2020 – June 2020

It is a turn based online multiplayer strategy board game that I created using Unity, Blender and many AWS services like AWS GameLift, DynamoDB, Cognito and Lambda functions. This game is published on Play Store.

<https://play.google.com/store/apps/details?id=com.msmg.TacticalCombat>

### Online grievance retrieval system – Android App named VITMONITOR

Feb 2019 – May2019

It is an Android application named as VITMONITOR which provides a platform for the students in our college to send complaints regarding any issue to any department of the college. I used Android Studio and Firebase

### FindMe

May 2019

It is an Android application named as FindMe. In this a user can save some locations by searching in the app. I created it using Android Studio, Google Map SDK and some other Google API.

### VITBUZZ – A small web site for college

August 2019 – November 2019

It is a web site named VITBUZZ, in this website users can post news or publish about any events by uploading description and photos. I created it using HTML, CSS, EJS for front-end and Node JS, Firebase for backend.

**Other small projects:** Weather Monitoring System (IOT), Maze War(Game), Smart Agriculture(ML), Smart-Shopping.

## Certificates

---

- Certificate of Gold Echelon Round in Hack4Cause by IEEE-SSIT
- JAVA(Basics) Certification by HackerRank.
- Udemy – AWS Developer Associate Certification.

## LANGUAGES

---

- Hindi
- English
- Telugu

## INTERESTS

---

Listening to Music  
Reading Books  
Karaoke
